GRASP NEWS - JULY 2016

[CLICK FOR JULY NEWS](#)

At a time when there is so much bad news in the media depicting despair and conflict, I think you will enjoy [GRASP's July Newsletter](#). You will read about happy, successful young people, from diverse backgrounds, who are engaging in their educational futures. Paying for education after high school is challenging for most families; that's why we are pleased that 96% of those who met with a GRASP advisor left with a better understanding of financial aid and 85% filed the FAFSA, the prerequisite to financial aid for education after high school.

Thank you for all of your support.

Sincerely,

Betsy
